

Mater-Bi CX01A : FDA status for use as CLING FILM

With reference to the above object Novamont S.p.A. hereby

declares

that Mater-Bi CX01A may be used in combination with Mater-Bi CE03A for use as a cling film up to 30 micron in thickness, to be sold to consumers for use in the home or in commercial food service establishments, such as restaurants and caterers*.

The above mentioned uses comply fully with the Federal Food, Drug and Cosmetic Act and all applicable regulation.

Additives that might be used to obtain the Mater-Bi based cling film are not considered by the herein statement.

Novara, November 4th, 2011

Fernanda Forcellini
Certification and Regulatory Affairs

* Use by food packagers, including establishments such as grocery stores is not covered by the herein statement.

The above reported information refers to the material composition and to the current regulations at the issuing date of the present document. Because of possible changes in the law and in regulations, as well as possible changes in our products, we cannot guarantee that the status of these products will remain unchanged. We therefore recommend our customers to verify their status no less frequently than two years from the date of this publication.
